THE SECRETARY-GENERAL

16 September 2024

Excellency,

I would like to express my sincere gratitude for the warm welcome and outstanding hospitality that I received during my visit to the Kingdom of Tonga from 24 to 27 August 2024. I was encouraged to hear about your country's ambitious agenda to ensure sustainable development and build resilience to meet the challenges of climate change. I also seize this opportunity to reiterate my warm congratulations on your Presidency of the Pacific Islands Forum and I commend your Government for hosting the Pacific Islands Forum Leaders' Meeting and for demonstrating inclusive leadership by elevating the voices of women, youth and civil society in the Pacific region. It is my hope that my visit demonstrated the solidarity of the United Nations with the Pacific in global discussions ahead of the Summit of the Future and COP29.

During our bilateral meeting, I was grateful for the opportunity to express my gratitude to Tonga for its contributions to the United Nations, including through its advocacy on behalf of the Pacific small island developing States. I look forward to continuing the valuable partnership between the Kingdom of Tonga and the United Nations and our ongoing cooperation during your tenure as Chair of the Pacific Islands Forum. I also look forward to meeting with you again in New York later this month.

Please accept, Excellency, the assurances of my highest consideration.

with my warmest regards

António Guterres

GOVERNMENT OF SAMOA
Ministry of Foreign Affairs and Trade

NOTE: 24/287

The Ministry of Foreign Affairs and Trade of the Independent State of Samoa presents its compliments to the Ministry of Foreign Affairs of the Kingdom of Tonga. It has the honour to request the assistance of the latter to convey to its highest destination the Letter of Invitation to the Prime Minister Hon Hu'akavameiliku to attend and participate in the Commonwealth Heads of Government Meeting from October 21-26, 2024 in Samoa.

The Ministry has the further honour to advise that information on logistical arrangements are detailed in the Aide Memoire on Administrative Arrangements Samoa that have been sent to all Member countries of the Commonwealth.

The Ministry of Foreign Affairs and Trade of the Independent State of Samoa renews to the Ministry of Foreign Affairs of the Kingdom of Tonga the assurances of its highest consideration.

Ministry of Foreign Affairs

29 April 2024

The Honourable Siaosi Sovaleni
Prime Minister
Office of the Prime Minister
Nukualofa
KINGDOM OF TONGA

Dear Prime Minister,

This year marks the 75th anniversary of the creation of the modern Commonwealth and Samoa is pleased that we celebrate this milestone with the historic gathering of the Commonwealth Leaders for the first time in a Small Island Developing State in the Pacific.

We live in unprecedented times where the multiple and interlocking global crises that are multi-dimensional and complex in their scope and nature; have tested the very mettle of our nations, governments and multilateral institutions. There seems to be a plethora of reasons to divide us, but I believe as the Commonwealth *Aiga* or Family; we have much more that unites us and thus we must remain resilient. As the Commonwealth, we have promoted and advanced our shared goals of sustainable development, democracy, human rights, freedom, peace and protecting the interests of small and vulnerable states for and on behalf of 2.5 billion of our citizens. The Samoa CHOGM is our opportunity to stand in solidarity, to reaffirm the values and principles expressed in our Commonwealth Charter; celebrate our diversity and focus on the theme of *“One Resilient Common Future: Transforming our Common Wealth”*

Climate change is the single greatest threat to the livelihoods, security and wellbeing of the peoples of the Pacific, but is also the defining crisis of our time. I look forward to open and frank discussions on where we can take leadership as the Commonwealth to deliver

concrete solutions not only on the climate crisis but on the multiple global challenges we face and how we can harness our common wealth to build *more resilient societies; resilient democratic institutions*; ensure a *resilient environment* and pursue *resilient economies*.

Therefore, I would be honoured to welcome you and your delegation to the Commonwealth Heads of Government Meeting to be held from 24th – 26th October 2024 in Samoa. My hope is we have the proper space to truly talk with each other as Leaders to discuss a resilient commonwealth. Our meeting will be preceded by a number of preparatory events, activities and ministerial meetings including the People, Youth, Women and Business Forums from 21st – 24th October 2024.

The CHOGM in Samoa will be the opportunity to bring the Commonwealth *Aiga* to the Blue Pacific to experience our challenges; but more importantly for all to appreciate our unique *fa'asamoa* (culture and traditions), faith and people. Through the multiple venues, events and activities; we hope to also showcase our own solutions on building resilience.

Consistent with the spirit of our Commonwealth *Aiga*, and guided by the *Fa'asamoa*, the government and people of Samoa eagerly anticipate welcoming the Commonwealth family to our island home and to our Blue Pacific Continent.

Sincerely,

(Fiame Naomi Mata'afa)
Prime Minister

TONGA EDUCATION POLICY FRAMEWORK

2004 - 2019

Strategic Goals

Goal 1: To improve equitable access to and quality of universal basic education for all children in Tonga up to Year 8 (Form 2).

Goal 2. To improve the access to and quality of post-basic education and training to cater for the different abilities and needs of students.

Goal 3. To improve the administration of education and training so that the quality of educational performance is enhanced.

23 April 2004

Education will develop the necessary capacity to move forward in the remaining years, without projectised support. While data collection and analysis tasks can be supported under a project, responsibility for policy making cannot be delegated. The Ministry of Education would still have to invest time and staff in order to “engage” with the implications of information that would be produced. The principal risk of this project approach is that the “culture” of information-based analysis and the associated skills will not be internalised in the Ministry and that, at the end of the project, the investment will be of marginal value. In addition, the costs of “projectised” support are substantially higher. The benefit of this approach is that the quantitative data and analyses, needed to operationalise and implement the plan and to “validate the intervention logic,” could be produced relatively quickly.

Proposed New Investments

8.17 The following investments in new Ministry of Education Budget Sub-Programs and Activities are recommended, and will be included in the Corporate Plan:

Policy Dialogue

01: Consultative For a.

Strengthen Policy Planning and Evaluation

- 01 Develop, adapt and implement a policy framework.
- 02 Develop an education policy & planning methodology.
- 03 Provide high quality policy advice.
- 04 Identify information required to manage education system.
- 05 Design & implement an Education Mgt Info System.
- 06 Undertake policy studies and research.

Capacity Building & Support Services

- 01 Assessment of skill needs to implement new MOE Corporate Plan.
- 02 Appoint staff (Deputy Director, & policy, IT & property analysts).
- 03 Train staff (including policy analysts, IT specialists, & property staff).
- 04 Undertake capacity building activities.
- 05 Implementation activities and support services.

Universal Basic Education to Year 8 (Form 2);

Policy Issue and Policy Outcome

8.18 The desired policy outcome is that there be universal basic education in Tonga up to the end of Year 8 (Form 2), and that this education should meet the following tests:

- education should be available to all children on an equitable basis;
- it should be of high quality, should promote student achievement at a high level, and should meet individual and national needs; and

- it should be delivered by competent, qualified, motivated and committed teachers, and
- it should be compulsory and free.

8.19 The education policy issues include:

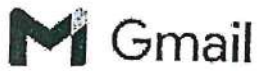

- how the Government can move towards accepting responsibility for providing a universal basic education for all, up to the end of Year 8 (Form 2), given the constraints of limited resources;
- what implications, if any, this might have for revising staffing norms (pupil:teacher ratios) at all levels of the system, including classes (grades) 1-6;
- the impact that increased funding of staff (either directly or through grants to mission schools) would have on resources for other inputs, and the likely impact on the quality of education and differences between schools and communities in their ability to raise additional funds;
- what intervention or combination of interventions (expanding existing government primary schools, constructing new government (middle) schools, and/or full government finance at mission schools) is appropriate;
- how to improve the partnership between the Government and Non-Government education authorities, and implications of increased direct Government provision for the viability of schools in the Non-Government systems;
- whether there is an aggregate need (independent of ownership) for additional classroom places, and the cost-effectiveness of investments in new physical infrastructure;
- projections as to whether additional facilities will be utilised in future, given trends in population growth and internal and external migration (i.e., school mapping and siting issues);
- the level of support that would be needed to “effect” the elimination of school fees at Government and Non-Government schools, and whether this should be done in stages or as a comprehensive policy change;
- policy on whether students should be retained in order to promote improved learning, or socially promoted each year;
- policy on equality of teaching/learning across all systems; and
- policy on recognising the development levels of individuals.

Government Policy Response

Three Options

8.20 The Government of Tonga is at present contemplating three main options to address these issues. The three options are not exclusive, and a combination of all options may finally be adopted. Further analysis and policy development is required before a final decision can be taken as to the most appropriate direction. The Government of Tonga will continue its own further policy analysis and development, once its policy capacity has been enhanced by proposed new appointments, and it will also request further external assistance and advice to inform its decision-making. The three options being considered are:

Dear Honorable Prime Minister Hu'akavameiliku,

I'm pleased to inform you that Tonga's expression of interest in the Global Partnership for Education (GPE) multiplier fund grant in the amount of US\$5 ml was just approved by the GPE Secretariat. Please see attached letter. This is great news for the country's education system.

This grant will be instrumental to implement key elements of your education reform and I can think of, for instance, the revision of the curricula for the levels 8-13, ECE, and education technology for continued learning. Our team will work closely with yours to identify the areas of intervention of your interest and prepare the GPE full-fledged grant proposal soon, so it can move in parallel with the preparation of the additional financing to the Safe and Resilient Schools Project (to be funded by the IDA20 Grant of \$22 ml).

Rest assured of our commitment to put together an excellent grant proposal in due time.

Sincerely,

Janssen E. Teixeira

To: Siaso Sovaleni <siaso.sovaleni@gmail.com>, pm@pmo.gov.to <pm@pmo.gov.to>
Cc: Sione Sisifa <sg@ago.gov.to>

Hon. Prime Minister,

You had requested I provide advice on whether a policy that provides that Christianity is the only faith to be practiced is contrary to clause 5 of the Constitution?

1. Clause 5 of the Constitution provides the following -

"5 Freedom of Worship All men are free to practise their religion and to worship God as they may deem fit in accordance with the dictates of their own worship consciences and to assemble for religious service in such places as they may appoint. But it shall not be lawful to use this freedom to commit evil and licentious acts or under the name of worship to do what is contrary to the law and peace of the land"

2. Advice

Clause 5 of the constitution provides that there is freedom to worship. This means that all men are free to practise their religion and to worship God as they deem fit. This clause further provides that this freedom of worship includes that men worship to their own worship consciences and to assemble for religious service in such places as they may appoint.

3. Clause 5 does not specify that Christianity is the only religion to be practised nor does it say that the Christian God is to be the one to be worshiped. It gives the freedom of religion, freedom of worship of God and freedom of worship according to their consciences and freedom of assembly for religious service in any place so appointed.

4. The only limits on this freedom to worship is that you can not use this freedom to carry out evil and licentious acts under the name of worship which will be contrary to law and the peace of the land.

5. So in light of clause 5 if there is a policy that limits the freedom of worship to only that of Christianity that

may be interpreted to be contrary to the freedom of worship.

6. I hope this assists but am happy to clarify further if required.

Respectfully,

Linda
